Decorating items and lawn games will still be charged if it happens to rain on the day of your wedding. Unfortunately the weather is out of our hands and we make the decision ½ hour beforehand if we are doing a wet weather ceremony under the deck. You have the option on the morning of the wedding to make the decision if you want to go with the wet weather back up and we can set up your ceremony decorations on the deck, otherwise any arches and tree draping will be set up at your ceremony area and hopefully you will get some beautiful photos later on if the rain subsides.
